

Cradle to Cradle Certified®
Version 4.1 Supplier CMR & SVHC Declaration
Revised September 9, 2024

Instructions:

As a supplier to a company applying for Cradle to Cradle certification, you have been asked to provide information about the composition of a material (homogeneous material) in a product seeking certification. To demonstrate compliance with the Cradle to Cradle Certified® Product Standard or any Cradle to Cradle Certified® supplementary certificates (e.g., C2C Certified Material Health Certificate™), the presence or absence of certain toxic chemicals and/or substances in the homogeneous material must be declared.

Use this form to declare compliance with Version 4.1 of the **Cradle to Cradle Certified® Product Standard, Section 4.6: Using Optimized Materials.**

Section 4.6 requires that products at the Silver achievement level and above do not contain carcinogens, mutagens, and reproductive toxicants (CMRs), persistent, bioaccumulative, and toxic chemicals (PBTs), or very persistent and very bioaccumulative chemicals (vPvBs). To demonstrate compliance with this requirement, suppliers must declare that their materials do not contain these substances.

Please follow the instructions specified for each section below and provide the required information in the designated fields. Altered versions of this declaration form (i.e., edited or otherwise modified statements or translation to a different language) are not accepted. If you are unable to declare compliance using this form, you may submit a statement of conformance in your own format. However, ensure that your statement includes all information requested in this document. For your convenience, a checklist is provided in Section 5 for this purpose.

For more information on substances restricted in Section 4.6 of the Cradle to Cradle Certified® Product Standard, see the [Cradle to Cradle Certified Product Standard Version 4.1 Restricted Substances Reference Document](#).

Cradle to Cradle Certified®
Version 4.1 Supplier CMR & SVHC Declaration
Revised September 9, 2024

1. Supplier Information	
Company Name:	
Address:	
Contact Name:	
Contact Title:	
Contact Email:	

2. Material Information	
Material Name:	
Material Number:	
Material Type:	
Affiliated Part / Material / Product Name*:	
Affiliated Part / Material / Product Number*:	
Affiliated Part / Material / Product Type*:	

*If applicable; Note that a separate declaration must be provided for each homogeneous material in the supplied part, material, or product. Note also that, unless stated otherwise, chemical concentration limits within regulations are applicable to individual homogeneous materials within a product.

3. CMR & SVHC Substance Reporting Table

Are any substances classified as [carcinogenic, mutagenic or toxic for reproduction \(categories 1A, 1B or 2\)](#) under [Regulation \(EC\) No 1272/2008 \(CLP\)](#) OR listed on the [REACH Candidate list of Substances of Very High Concern \(SVHC\)](#) present in any materials listed in Section 2 (above), either as intentionally added ingredients or known contaminants?

Check the appropriate box below.

<input type="checkbox"/>	No, the material(s) do not contain any of the chemicals on the lists described above, either as intentionally added ingredients or nonfunctional constituents.
<input type="checkbox"/>	Yes, the material(s) contain at least one chemical on the lists described above. If selecting this option, please indicate the name, CASRN, and concentration of <u>all</u> listed chemicals contained in the homogeneous material(s) in the space provided below.

Per Section 3 above, complete the table below if any listed substance(s) are present in the materials. Attach additional pages if necessary.

Substance	CASRN	Concentration (add units)	Comments

5. Checklist for Supplier-Formatted Declarations

Companies that are unable to sign this Cradle to Cradle Products Innovation Institute (C2CPII) form may instead submit a statement of conformance in their own format.

The statement must contain the same information that is requested on this C2CPII form and be printed on the supplier's company letterhead. A checklist is provided below to ensure that all necessary information is included. These documents are subject to review to ensure that all required information is provided.

Letterhead:	<input type="checkbox"/> The statement must be on company letterhead and must contain basic company information (e.g., company name, address contact information, logo, website).
Supplier and Material Information:	<input type="checkbox"/> Supplier information must be provided: Contact name, title, and email. <input type="checkbox"/> Material information must be provided: Material name, number, type, and affiliated part, product number, and product type.
Declaration of Conformance:	<p>The declaration must be made using the required language from the C2CPII form:</p> <p><input type="checkbox"/> The material(s) do not contain any substances classified as carcinogenic, mutagenic or toxic for reproduction (categories 1A, 1B or 2) under Regulation (EC) No 1272/2008 (CLP) OR listed on the REACH Candidate list of Substances of Very High Concern (SVHC), either as intentionally added ingredients or nonfunctional constituents.</p> <p>OR</p> <p><input type="checkbox"/> "The homogeneous material contains one or more chemicals classified as carcinogenic, mutagenic or toxic for reproduction (categories 1A, 1B or 2) under Regulation (EC) No 1272/2008 (CLP) OR listed on the REACH Candidate list of Substances of Very High Concern (SVHC)."</p> <p>If selecting this option, the supplier must indicate the name, CASRN, and concentration of all listed chemicals contained in the material.</p>
Attestation and Signature:	<input type="checkbox"/> Use the attestation language from the C2CPII form: "I attest that I am the person named below, and that the information provided in this document is complete, true, and accurate to the best of my knowledge". Equivalent attestation statements may be used if approved by C2CPII. C2CPII will reject statements that do not match the intent of the approved language. <input type="checkbox"/> An appropriate company representative with the relevant knowledge of product and material composition, responsibility, and authority must sign the document. Physical signatures, electronic signatures, and typed signatures are all acceptable. <p>An electronic document generated without a signature may be accepted if it otherwise meets the requirements described in Section 5 and includes the following statement (or equivalent): <i>This document is valid without signature.</i></p>
